ABOUT THE STATE

The installation of the Rev. Edwin Jones as pastor of the Congregational church in West Brattleboro calls attention to the fact that the church has had but nine ministers previous to Mr. Jones in the 140 years of its organization.

Last year sap in the maple sugar orchards in the southern part of the state began running March 12. With the quantity of snow now in the woods, a bumper season might be forecasted throughout Vermont but for the fact that the ground is frozen very little.

The milk report in the bulletin just issued by the state board of health shows that seven samples taken were found watered. The seven towns from which the watered samples were taken were as follows, there being one dealer from each: Rutland, Burlington, Newport, Bristol, Thetford, Chester and Weston.

The directors of the Addison county Agricultural society have added a green race to the fair attractions, the purse being \$150. The handicap stake race will be another novelty. The total to be expended on races will be \$3,200. A sum not to exceed \$500 additional may be expended on track improvements.

The granite firm of Detroit has undertaken to determine the extent of the granite deposit on the Mann farm, Randolph, and will begin operations in the spring with \$20,000 to expend in the work. A. H. Beadle and A. B. Thomas, the latter of Hardwick, have some intentions but no definite plans with regard to the white granite on the Beadle farm. The green granite on the Larson farm, now owned by Messrs. Beadle and Thomas, has, it is understood, a ledge extending also on to the Mann farm, but nothing will probably be done with the green stone this year.

Vermont Optometry Board.

The Vermont board of examiners in optometry held its first meeting at the Brooks house, Brattleboro, March 10 and 11, 1908. The organization was effected by the election of H. F. Jordan, Brattleboro, president; A. S. Haskins, St. Johnsbury, secretary; A. R. Slader, Rutland, treasurer. On May 12, 1908, a meeting of the board will be held at the Brooks house, Brattleboro, for the purpose of taking action upon the applications for exemption certificates. On June 16 and 17, 1908, the board will meet in Montpelier for the purpose of examining all eligible applicants desiring to commence the practice of optometry in the state of Vermont, under restrictions of the law of January 9, 1908. No person not a holder of a certificate of registration or exemption duly issued and recorded, after the first day of July, 1908, practice optometry within this state. It is especially requested by the board that all applications for exemption certificates be properly filled out, verified, and promptly returned to the secretary before May 12, 1908, thus avoiding delay and additional expense of another meeting. Application blanks for exemption or examination can be obtained from A. S. Haskins, secretary, St. Johnsbury, Vt.

THE TERCENTENARY MEDALS.

Profits to be Applied to Champain Memorial Fund.

Burlington, March 23.—The first lot of the Lake Champlain tercentenary souvenir medals has been received. The larger medal is of wash gold, oval in shape, the diameter being two inches one way and one and three quarters the other. The medal is suspended from a gilt pin which bears the words, "Vermont and New York Joint Celebration." In the center of the medal is a portrait of Champlain, in relief, and below it are the words, "The Tercentenary of the Discovery of Lake Champlain." Grouped around the portrait are the seals of the states of Vermont and New York, a cluster of arrows, Indian hatchets, a canoe containing an Indian, the date 1609, beneath, and on the opposite side of the portrait, the representations of steamboat, steamship, which were in use in 1909. The medal will sell for 25 cents.

The smaller medal is of gun metal, one inch in diameter, and is suspended from a ribbon of red, white and blue.

One side bears a portrait of Champlain in relief, above which are the dates 1609 and 1909. Upon the reverse side is a representation of Champlain and his two French companions entering the lake in a canoe, another canoe following. Above are the words, "The Tercentenary of the Discovery of Lake Champlain." Beneath are the seals of the two states.

The profits from the sale of the two medals, which have been ordered in large quantities by the two state commissioners, will be set aside for the Champlain memorial fund. The smaller medal will be placed on sale in all the public schools of the state, the proceeds to be set aside as a special school children's fund for the memorial, possibly to be used for a tablet or historical group to be used in his relief.

Mr. Cotting removed to Wisconsin in 1836, and his wife joined him the following year. It was a long journey in those days from Vermont to Kenosha, in the territory of Wisconsin, and on the way Mrs. Cotting passed thirty-six nights on the Great Lakes, in 1844. Mr. and Mrs. Cotting settled in a wilderness section of Illinois, inhabited mostly by Indians, there being only two log cabin there at the time. Although the government had made no surveys there, Mr. Cotting had purchased a mill site, and as the town grew he had the honor of naming it after his native town in Richmond. Mrs. Cotting had lived in that township for nearly sixty-five years and in the house where she died for more than sixty years. She and her husband re-

lated the first golden wedding in the history of the country.

Mrs. Cotting enjoyed excellent health and retained her mental faculties to the last. She was a famous nurse in the pioneer days. She is survived by a son, Stephen Cotting of Richmond.
